## LSG Sky Chefs – Spotlight on In-flight Equipment Innovation

Intelligent solutions that make a positive impact come from intelligent planning. Our company motto is „We listen. We care. We solve.“ In keeping with this, we aim not to simply create products for you, but rather to create them in partnership with you. This way we can deliver the maximum in benefits – from cost savings to improved passenger satisfaction. We are your expert resource for design. LSG Sky Chefs recently received a number of prestigious national and international design awards for various products designed for major international airlines.

The following highlights a few samples of product innovations which were created based upon the unique needs of our clients. We can provide you with tailor-made solutions to meet your specific needs, ensuring you receive the most out of your investment.

### Corsairfly – Tailor-made equipment solutions

Designs are focused upon the airline's vision of passengers entering a welcoming environment from the moment they check in. Key drivers such as passenger demographics, airline destinations and aircraft interiors were taken into consideration by LSG Sky Chefs' designers and engineers, resulting in products that use vibrant colors and unique shapes that mirror the airline's vision and characteristics.

#### 1 Economy class tray set up

- Made of food-safe polystyrene
- Optimized design provides 15% savings in raw materials
- Reduction in logistics costs due to an optimized and stackable design
- Light-weight and ergonomic
- Color mixture keeps the product playful and new

#### 2 Second service meal box

- Value product for passengers
- Efficient service delivery
- Made of recycled cardboard – fully disposable
- Optimized use of trolley space

### Lufthansa – A seamless product design in economy class

Lufthansa was seeking to harmonize all of its Economy Class products from passenger seating to tableware to consistently reflect its unique brand personality. LSG Sky Chefs developed onboard equipment designs which fit seamlessly into the overall product mix while also improving ergonomics and handling, freeing up space, lowering weight and increasing product resilience to breakage.

#### 3 Economy class tray set up

- Longer product life through specially developed SAN base material
- Increased crew convenience through ergonomic design
- Product design reflects Lufthansa brand personality and blends into overall cabin feel

#### 4 Business class starter box

- Unique service concept providing full flexibility in menu range
- High-quality rotatable product
- Disposable inserts for flexible sections
- Continuous cycle of new contents to increase passenger satisfaction

### In-flight equipment made of sugar cane

LSG Sky Chefs has also pioneered the development of environmentally-friendly in-flight equipment made of sugar cane – a biodegradable material made from natural, environmentally sustainable crops.

#### 5 Sugar cane tray

- Disposable trays, completely biodegradable
- Customizable to any size requirement
- In-flight savings through a reduced product weight
- Damp-proof, grease-proof, freezer-safe and suitable for hot and cold meals
- Trays are microwave-safe and do not soak up liquids
- Usable in Atlas and KSSU trolley storage set-ups
- Additional sugar cane bowls and casseroles available for a full eco-friendly concept

#### 6 Malaysia Airlines sugar cane box

- Customized menu box
- Capable of holding hot meals which are inserted from the side
- Airline logo embossed
